the fun of being fed and the first
steps to feeding themselves.
So this neat set keeps the food
and drink in place until they –
finally – want to eat.

We do our part

We find the smartest, most sustainable way to design, produce, package and distribute each product, so that the most people can afford it. For example, the way we flat-pack furniture makes it less bulky to transport. The cost stays down and you can take it home easily by yourself.

You do yours

You keep the price at its lowest when you pick up, take home and assemble your new furniture yourself. That way, you can enjoy your purchases straight away. Of course, how much you do is up to you. If you would like some help, you can find some of the services we offer on the opposite page.

And together we save money

The IKEA° concept

We try to give as many people as possible the chance to enjoy well-designed home furnishings that make a real difference to their everyday life. Whatever else changes, our original ambition – a better everyday life for the many people – never does.

Would you like some help? We have a service to suit you.

We want your IKEA shopping experience to be as easy as possible. However, we also know that we all have moments when we don't have enough time or energy – moments when we need a helping hand. That's why we can arrange a menu of services to help you with everything from putting it together to getting it home.

Shopping at IKEA has never been easier.

More help for refugee families

IKEA Foundation continues to support the UN Refugee Agency (UNHCR) in providing refugees with a better place to call home, including sustainable energy and lighting solutions to improve conditions for refugees around the world.

Next it will support UNHCR in improving access to clean and renewable energy, giving refugees the opportunity to cook their own food and pursue household activities after dark, making refugee camps a safer and more sustainable place to live. Our commitment is to create a better everyday life for the most vulnerable children and families.

In funding the lighting and cooking needs of refugees, among other activities, IKEA Foundation provides positive energy for the future!

IKEA Foundation

Lending a hand

40 volunteers from the Sydney IKEA stores at Rhodes and Tempe helped create a home away from home at children's hospice Bear Cottage, in Manly, NSW.

Being a good neighbour and working together is an important part of the IKEA culture. That's why every IKEA co-worker gets the opportunity to take a day of paid leave each year to volunteer in a way that supports the local community.

Last year our co-workers donated 826 hours to support local communities and people most in need of a helping hand.

From cooking meals for the homeless, gardening for those with disabilities, to wrapping presents and supporting the local fun run, it has been a busy year and this is just the start.

If you know of a charity or community organisation in the Sydney, Melbourne, Brisbane or Canberra metro areas that is in need of a hand, why not have us over?

What's it made of?

We like to work with materials that are renewable, recyclable or recycled – it makes sense for the planet, as well as your pocket. And we keep looking for even better, even more sustainable materials. Here are some current favourites.

To see more stories behind our products, please visit IKEA.com.au/resources

From August 2015, all our cotton will come from farms that use less water and pesticide, while improving the lives of farmers.

The flax plants from which linen is made often grow without the use of artificial irrigation and pesticides.

Water hyacinth

This fast-growing plant is great for hand-woven items that need to be hardwearing, such as place mats.

Recycled PET plastic
Melted down and turned into pellets, PET
plastic becomes a soft, useful textile – to fill
a sofa or pillow for example.

Wood plastic composite

We mix polypropylene with wood fibres from sawmill waste to create strong and low cost plastic products.

We work with the Forest Stewardship Council® and other partners to source more wood from well-managed forests.

This plant provides a beautiful, strong and lightweight material that can resemble hardwood.

The IKEA catalogue is printed on FSC® certified paper to ensure more sustainable origins of the wood.

10 Year GUARANTEE

15 Year GUARANTEE 25 Year GUARANTEE

The benefits provided by the guarantees on the following pages are in addition to other rights and remedies which may be available to the consumer under Australian Consumer Law.

What is quaranteed?

The extent of the guarantee given for each product is described alongside each product and in the specific product conditions on pages 318-320.

Duration of guarantee

Each guarantee lasts for the number of years stated against each product starting from the date of purchase.

What will IKEA do to correct the problem?

IKEA will examine the product and decide if it's covered under this guarantee. IKEA will then, at its choice, either repair the defective product or replace it with the same or a comparable product.

If IKEA chooses to repair a defective product, IKEA will be responsible for the costs of repairs, spare parts, labour and travel for repair staff that IKEA incurs, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. Any defective parts removed in the course of repair works will become the property of IKEA.

Conditions for the quarantees

The guarantees are valid from the date of purchase at IKEA. The original purchase receipt is required as proof of purchase.

Exclusions

The guarantees do not apply to products that have been stored or assembled incorrectly, used inappropriately, abused, misused, altered, or cleaned with wrong cleaning methods or wrong cleaning products. The guarantees do not cover normal wear and tear, cuts or scratches, or damage caused by impacts or accidents.

The guarantees do not apply if products have been placed outdoors or in a humid environment or if the products have been used for non-domestic purposes (unless otherwise stated). The guarantees do not cover consequential or incidental damages.

If goods are repaired or replaced during the guarantee period, this will not extend the guarantee period for the product, new parts or replacement product.

If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide at its discretion, what will constitute an appropriate replacement.

Further exclusions for specific products are set out in the specific product conditions on pages 318-320.

The guarantees are to the benefit of the original purchaser of the product. They are not transferable. For details see the guarantee conditions and descriptions for every product.

Care instructions

To be able to rely on this guarantee you need to follow the specific care instructions for every product.

> You will find all care instructions at your local IKEA store and online at IKEA.com.au

General legal rights

You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to major failure. The benefits under our guarantee are in addition to other rights and remedies under law in relation to the goods.

TYDLIG

Cooking can sizzle and excite. Scrubbing scorched food from your cooktop, not so much. Here, you can slide the power booster up, as spills don't burn on an induction cooktop – only your magnetic pots and pans can feel the heat. Oh, and if anything does boil over, the cooktop switches itself off anyway.
